A sad scene with which to terminate a brilliant evening. They have returned from a reception. She had felt restless and nervous during the day, and is suddenly taken with that "faint feeling" so prevalent with our women. The cause of this feeling is some derangement, weakness, or irregularity incident to her sex, and can readily be removed by prompt and proper treatment.

The Vegetable Compound acts like magic in such cases. It not only gives prompt relief, but effects a permanent cure.

GREATEST THING YET.

C. W. Johnston Engages the Most Daring Balloonist Living—His Feats.

If there is anything that will attract the people and hold them spellbound for hours it is a balloon ascension. The present season is especially prolific with so-called balloonists, and as a result many of the advertised performers are a dismal failure. But there are a few good aerial artists in the business, and the prince among them is under engagement with C. W. Johnston at Reed's lake. This intrepid aeronaut is none other than Prof. W. W. Jones, who has a world-wide reputation as the most daring of cloud climbing men living, while his parachute drops from the blue ether cause people to hold their breath as he performs marvelous feats on the trapeze while falling to earth.

Professor Jones is regarded by all aeronauts as the most accomplished, most daring and most skilful of any who have ever climbed into the basket for a skyward trip or dropped in a parachute to earth from heavenly heights. Mr. Johnston, who by the way has the only real snow and attractive pleasure ground at Reed's lake, by reason of its features and the location, gives the only real entertainment. He announces that Prof. Jones will make these ascensions every afternoon between 6 and 7 o'clock. The professor issues a challenge to any balloonist on earth to compete with him on the trapeze in mid air, and will put up \$100 or any sum that he will do all takers.

No More Regular Meals. From this date Senator Douglass of the Douglass Restaurant will discontinue serving regular meals and confine his business to short order work exclusively.

NEW REVERSIBLE CHART OF THE UNITED STATES AND WORLD

A \$10.00 Atlas condensed and compiled in the most comprehensive and ready reference manner possible, and printed on one sheet of paper.

A large map of the world with a special Map of the United States, England and Wales, Germany and Norway and Sweden—comprehensive diagrams of mountains and rivers, an alphabetically arranged compilation describing every country in the world, and its location indexed.

On the front of this marvelous publication we have printed the LARGEST and BEST MAP of the

UNITED STATES
ever made on a single sheet of paper. Each state is shown in separate color, with a special transparent outline designating state and county boundaries.

It is carefully corrected to date, showing every line of railroad and all important cities and towns. It is large enough and complete enough to fully meet the demands of a student or business man. A child can, with this map, study the geography of the United States with intelligence. The reader can, with accuracy, locate the notable happenings of the day, and the merchant can lay out routes for his travelingmen, or ship goods with economy.

In fact, it is a COMPLETE and ACCURATE map of the United States, 66x46 inches in size.

On the other side we have printed the library chart of the

WORLD.
A panorama of the surface of the globe, on Mercator's Projection, with its lands and water, mountains, rivers, lakes, bays, seas, and islands, all properly located and beautifully tinted by our patent process of oil colors.

Around the margin of the map we have printed statistical and descriptive matter of more value than can be found in any volume that was ever published at Three Times the Cost. The different divisions of the world are arranged by continent to show their area, form of government, chief executive, capital, and population. A series of short articles arranged alphabetically give, in a remarkably concise and comprehensive form, a description of every country or government in the world, no matter how small, together with its chief products, exports and imports, and its exact location on the map shown by our ready reference index.

Edges bound with tape, sticks top and bottom, ready to hang on the wall.

The price of this map is \$5.00, but with a year's subscription to the GRAND RAPIDS HERALD will cost you only \$1.00. The subscriber can make his choice.
